New business:

Zoning administrator update – Rob reported township permits are growing from previous years – all is well

Capital Improvement – 2023 packet was sent to Board – passed by Board

Blight and other issues – a few blight complaints have been brought before Rob and he has tried to help mitigate those complaints, but we [Twsp.] don't really have a solid ordinance based blight program. This was discussed at length. Rob has worked with a couple landowners to try to solve/remedy their concerns

Old business

Master Plan version #5 is being worked on and nearing completion. The 'Plan' is moving forward
